MANHOOD:

IN THE

YOUNG AND RISING GENERATION.

The vegetative powers of life are strong, but a few years low-born the pallid face, the lack-lustre eye, and emaciated form, and the impossibility of application to mental office, show their baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent to the country. This is one of the worst measures. Removed from ordinary diversions, deprived the gay scenes of city life, the powers of body, not much enfeebled, give zest to health and vigor. Instinctively the thoughts are turned inwardly upon themselves.

In the patient's female the approach of the sex is shrouded for with anxiety as the first symptom of such a nature is to slumber saving power in diffusing the fascination and whitening the cheek with the bloom of health. Alas! increase of appetite takes place, but what food on? The energies of the system are in a state of stasis, and the pale economy is defective. The beautiful and wonderful period in life, when body and mind undergo so fascinating a change for good or ill to woman, is looked for in vain. The parents hear bleak in anxiety and fancies the grave yawning for its victim.

The regenerative powers of life are strong, but a few years low-born the pallid face, the lack-lustre eye, and emaciated form, and the impossibility of application to mental office, show their baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent to the country. This is one of the worst measures. Removed from ordinary diversions, deprived the gay scenes of city life, the powers of body, not much enfeebled, give zest to health and vigor. Instinctively the thoughts are turned inwardly upon themselves.

Alas! increase of appetite takes place, but what food on? The energies of the system are in a state of stasis, and the pale economy is defective. The beautiful and wonderful period in life, when body and mind undergo so fascinating a change for good or ill to woman, is looked for in vain. The parents hear bleak in anxiety and fancies the grave yawning for its victim.

HIDE SYMPTOMS, IF ALLOWED TO GO ON, WHICH THIS MEDICINE INVARIABLY REMOVES SOON FOLLOW LOSS OF POWER, FATUITY AND EPILEPTIC FITS, IN ONE OF WHICH THE PATIENT MAY EXPIRE.

During the Superintendence of Dr. Wilson at the Pennsylvania Asylum, the same result occurred to two patients. Reason had for a time left them, and both died in epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excess are not frequently followed by those direful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths by Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sodden and quite destitute, neither mirth nor grief ever visits it. Should a sound of the wise occur it is rarely articulate.

"With woful measures wan despair
Low sullen sounds their grief begulled."

While we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

Sold by Druggists and Dealers everywhere. Price $1.25 per bottle, or six bottles for 6.50. Delivered to any address. Describe symptoms in all communications.

HELMBOLD'S GENUINE PREPARATION, established upward of twenty years, prepared by

H. T. HELMBOLD,

Practical and Analytical Chemist, Crystal Palace Pharmacy,

594 Broadway, New York.

ALSO

104 South Tenth Street, Philadelphia, Pa.

Sold by Druggists everywhere.

EXTRACT BUCHU

For Weakness Arising from Excesses of Early Indiscretion.

Attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Dimness, Weakness, Horror of Disease, Weak nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dullness of Vision, Languor, Universal Lassitude of the Muscular System, often Enormous Appetite, with Dyspeptic Symptoms, Hot Hands, Burning in the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Confusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness with Horror of Society. Nothing is more desirable to such patients than society, and nothing they more dread, for fear of exposure of their weakness, or earnestness, suspicion, but a hurried manner from one position to another.

THESE SYMPTOMS, IF ALLOWED TO GO ON, WHICH THIS MEDICINE INVARIABLY REMOVES SOON FOLLOW LOSS OF POWER, FATUITY AND EPILEPTIC FITS, IN ONE OF WHICH THE PATIENT MAY EXPIRE.

Penobscot Log Driving Company

The Annual Meeting of the Penobscot Log Driving Company for the choice of officers and transaction of other business, will be holden at the Pinole Exchange in Bangor, on SATURDAY, the tenth day of February, A. D., 1872, at two o'clock in the afternoon.

The Directors of said Company will receive sealed proposals until said tenth day of February, for driving the Logs on the west branch of the Penobscot river, into the Penobscot Boom, the next driving season, as each and separate drives to be made of the logs left last year in Ripogenus.

Per order of Directors.

ABRAM MOOR, Clerk.

Bangor, Jan. 24, '72.

Important Notice

to

Ship Owners.

AMERICAN LLOYDS OFFICE,
Berlin St., New York,
Jan. 31, 1871.

The Register for 1871 is now ready. The January Supplements will not and shall be forwarded to the history as the "Register." In order to supply the demand for the Expedition, an extra edition will be printed and furnished gratuitously to all parties in possession of a book called the "Record," or a book called the "American Lloyds Universal."

EARTHSHORN & KING.

The American Lloyds Register, being the acknowledged standard of American surveys of shipping, approved by underwriters generally, and adopted by the Peruvian Government as a standard for the selection of ships to carry Guano, also by the California Board of Underwriters and the West India Lloyds at Havana, &c., &c., it is important to owners to have their vessels surveyed and classed in the "Register." Having competent surveyors throughout the State of Maine, I am prepared to order or make surveys personally, of those apply, and to grant certificates under the "Standard Rules" issued by the Board. Also parties can be supplied with copies of the American Lloyds Register, for 1871, by sending their orders to me as the National Insurance Company, Bangor.

H. HERRIMAN,

Surveyor (General) A. L. for Maine.

ROOFING SLATES.

THE HIGHLAND SLATE CO.

Now manufacture and offer for sale, from their quarry in Brownville, all the celebrated slate of Rooting Slates, equal and identical in shape, quality of strength, durability, color, and finish, with the productions of other quarries in that extensive locality.

ROOFING SLATES AND SLATERS.

Are respectfully invited to examine and price these slates before purchasing elsewhere.

Office, No. 14 Merchant's Row, Boston.

H. H. HAYDEN, Agent.

Brownville Quarries.

Boston, Nov. 1, 1871.

ATTENTION.

A good smart man can sell or make from $5 to $10 a day selling the PATENT PAN LIFTER, for taking hot pans out of stoves and ovens, as it is what is wanted in every family, and will sell at sight.

Mexico obtained an independent existence in 1821, and since that time it has had thirty-five presidents and dictators.

The director of the Paris Official Journal, published under the control of the Commune, has been sentenced to transportation.

New York restaurant keepers advertise steak from the buffaloes slain by Alexis. The incredulous think it must be a rifle-steak.

So cold is the weather in Southern Europe that they have skating in Florence. The wonder is that there should be skates there. The skaters must be mostly foreigners.

The cut or of Grix's Baby is severe. He says no other people in the world have such talent for the ornamental expression of nothing as the Americans have.

"The Missouri movement" does not move none but political vagabonds showing it any favor. Like all others of the anti-Grant undertakings, it furnishes material only for undertakers.

In some parts of Virginia peanuts are next to corn, the standard crop and are very profitable. With good cultivation they yield from fifty to one hundred bushels per acre, and average about two dollars per bushel.

A very broad smile was provoked at the Telegraph Congress dinner in Italy by the *cementerio* a of the Garibaldi Hymn being performed immediately after the toast to the "Reigning Sovereigns of Europe."

I required the aid of one clergyman, several able-bodied relations of the bride, and two revolvers to solemnize a marriage in Louisville the other day. The bridegroom made his bridal pour alone.

A crusty old bachelor in Congress proposes to levy a tax of twenty-five per cent. on corsets, which reminds down East proper remarks, "Since the G is no tax on men getting tight, why should not ladies have the same privilege?"

One of the women clerks in the Postoffice Department was married last week, and there have been nearly one hundred applications for the vacancy. There are also on hand more than five hundred applications from other women for the first vacancy.

The Boston Journal says: "There is only one thing that is astonishing about the case of Mr. Fred Douglass and the Planters' Hotel in St. Louis, and that is that Douglass didn't know better than to stop at such an inferior tavern."

Mr. J. B. Newton Railroad Agent at Webster, Va., on the Parkersburg Branch Road reports that the shipments of chestnuts from that station this season have amounted to 18,432 pounds. This would be somewhere about 1,500 bushels.

In the case of Newby against the Chief Resident Officer in England of the Colt's Arms Company, of Hartford, Conn., Justice Blackburn has rendered a decision that a foreign corporation may be sued in the courts of England through its representative living in that country.

The Mayor of Ann Arbor, Michigan, is possessed of a grim humor. He has equipped a police force for the closing of saloons on Sunday night, and to defray the expenses has levied one hundred dollars on each saloon, and fifty dollars on each billiard table.

The old barbarities of the days of slavery, we are sorry to see, have not yet entirely disappeared. A negro boy eleven years old was whipped to death the other day in Marysville, Pa., by his employer. The inhuman being has fled to parts unknown.

According to a San Francisco paper that city rejoices in a "female gambling palace, magnificently furnished and decorated, which is principally supported by respectable female ladies who according to the same authority, "may be seen there drunk every evening."

Fred. Douglass don't like the interviewer. He said to one of them the other day, "I like to meet people, but I don't like to have them question me all the time, get out of me all they can, give nothing themselves, and then go away leaving me half exhausted and none the wiser. A system of fair exchange suits me. There is no social robbery in that."

The London times says the English race is deteriorating, and thus gives the reason why:

"Bad air, a dwarfing our population, ruining our navy, encouraging our enemies, impoverishing our blood as a nation, scandalizing our creed as a church, outraging our proudly shameful pretensions to the enthusiasm of humanity."

THE AGRICULTURAL COLLEGE

The report of the Trustees of the Agricultural College states that in the Senior class there are 6 students, Junior 6, Sophomores 4, Freshmen 24—a total of 42. Candidates for admission must be not less than 15 years of age, and must pass a satisfactory examination in Arithmetic, Geography, English Grammer, History of the United States, and Algebra as far as Quadratic Equations. Satisfactory testimonials of good moral character and industrious habits are rigidly exacted. Great prominence is given to the study of the natural sciences. Nearly a whole year is devoted to Botany and Horticulture, embracing a thorough drill in Botanical Analysis; the study of plants as to their relative importance and distribution, etc. The student is taught practically the operations and processes in the department of Horticulture. A year and a half is devoted to Chemical Physics and Chemistry including Agricultural Chemistry. Other departments of science are taught, as far as may be. Students are required to labor a certain portion of each day, not exceeding three hours, for five days in the week, the design of this manual labor being educational. Students also have use of tools, and acquire a fitness for mechanical pursuits.

Rev. C. F. Allen, A. M., a graduate of Bowdoin College, and a ripe scholar, is President of the institution, and has charge of the department of English Literature and Mental Science; Prof. M. C. Fernald, A. M., is Professor of Mathematics and Physics; Prof. E. L. Packard, A. M., Chemistry and Modern Languages; Prof. W. A. Pike, C. E., Professor of Civil Engineering; Prof. O. H. Fernald, A. M., Professor of Natural History. Samuel Johnson, having resigned his position as Farm Superintendent, J. R. Farrington of Brewer, was elected to his place, and entered upon his duties in April.

In the completion of the buildings, the purchase of furniture and apparatus for the different departments, and in meeting the current expenses of the college, a debt of thirteen thousand dollars has been incurred. The Trustees regretted the creation of this debt: the alternative was forced upon them to suffer the college to struggle along in a crippled condition, with little capacity of usefulness, and no prospect of fulfilling the design for which it was established, or to exceed the appropriation of last year, by furnishing the suitable facilities for the college to enter upon its fourth year, with a strong faculty, and all the conditions necessary to insure success. The Trustees deem it necessary that the residences for the President and one of the Professors should be erected on the college grounds.

For these buildings there will be required the sum of

For farm improvements	$8,000,000
Apparatus and library	3,000,000
	1,000,000
	$12,000,000

Add to this the debt incurred in behalf of the college, as shown by the Treasurer's report.

Bills unpaid	$11,687 72
	1,312 28
Making a total of	$25,000 00

The farm Superintendent gives a detailed report of various experiments on the farm, stock kept and improvements made.

(Reported for the Whig & Courier.)

MAINE LEGISLATURE.

Augusta, Feb. 5, 1872.

SENATE.

Met at 2 P. M.

Journal read and approved.

House papers passed in concurrence.

Committee reported—Bills, act to incorporate Rockland Marine Insurance Co.; incorporating Millbridge & Cherryfield Telegraph Co.; to authorize E. R. Bowden to build and maintain a wharf in Penobscot; authorizing W. H. Hemenway and W. H. Pope to build wharves in Machias river; authorizing construction of Marine Railway at Bass Harbor; legalizing doings of District No. 18, Boothbay; act relating to executors and administrators residing out of the State. These were assigned for to-morrow.

Remonstrance of J. Crosby and others and A. Adams and others against locating railroad through Dexter village.

Orders passed—Asking for a law preventing the manufacture and sale in this State of prize packages of stationery and confectionery, so called; relating to distribution of the Bank Commissioner's report.

Finally passed—Act to continue in force law authorizing pensions to disabled soldiers and seamen; acts incorporating three savings banks; resolve appropriating $20,000 for the Normal School at Castine.

HOUSE.

Met at 10 A. M.

Senate papers passed in concurrence.

Orders presented and passed—Ordered, That the Committee on Interior Waters be instructed to inquire into the expediency of reporting a general law with regard to towns appointing harbor masters; for law authorizing sale of logs attached or mesne process in same manner as perishable property; calling for a schedule of the rate of school taxation in several towns.

Act to incorporate Castine & Ellsworth Railroad Co., assigned to to-morrow for third reading.

Committees reported resolve in favor of Passamaquoddy Indians; act to incorporate the Aroostook Steamboat Co.

Leave to withdraw, on petition to build dam and improve Sandy River.

Ought not to pass, on act relating to adoption of children.

Bill an act repealing bounty on bears was indefinitely postponed, on motion of Mr. Lebroke.

Tabled to print—Act relating to equity jurisdiction of Supreme Judges; resolve in favor of Fort Fairfield High School.

Passed to be engrossed—Act to incorporate East Branch Pleasant River Dam Co; act to authorize W. H. Hemenway to extend wharf in Machias river; act authorizing C. M. Holden and others to extend wharf at Bass Harbor; authorizing Buckspor to take further stock in Penobscot & Union River R. R. Co.; act to secure lien on brick;

Passed finally—Resolve in favor of Phebe Hayden; in favor of David A. Sewell and Oliver S. Dow; in favor of Salmon Jones; in favor of Daniel and Thomas Randall.

Passed to be enacted—Acts incorporating the Lubec Savings Bank; the Foxcroft Manufacturing Association; the Baptist Home Missionary Society; the Magalloway River Dam Co.; the Union River R. R. Co.; the Sandy River R. R. Co.; the New Portland Camp-meeting Association; act authorizing Bangor & Piscataquis R. R. Co. to locate and construct branches.

Roll

Whig & Courier.

JOHN H. LYNDE, - - PROPRIETOR.

TUESDAY, FEBRUARY 6, 1872.

RAILROAD ACHIEVEMENTS IN THE WEST.

An article in the Boston Journal cites the successes of the West in the matter of railroad building, as almost beyond belief, and as calculated to make one a devotee to the inspirational utterance of Shakspeare when he made Puck say that he would put a girdle round the earth in forty minutes. Two years ago there was not a mile of available railroad track in Colorado, and to-day five railways make Denver their centre. These are the Kansas Pacific, the "Boulder Valley," the Colorado Central, the Denver Pacific and the Denver & Rio Grande. In addition to these, several new lines are shortly to be opened, all bringing Denver into connection with many of the most active centres of the West and Southwest. Many of the lines lead into coal and gold and silver mines of undoubted value, and piercing the mountain ranges, bring their treasures to the daylight with a rapidity and certainty which makes the world stare. The Denver & Rio Grande road is described as the new route to Mexico, leading directly from the centre of the United States to the centre of the former country, and running through a country which is especially rich in agricultural resources. Inasmuch as this line is the first experiment of the narrow gauge system in this country, its completion is exciting considerable interest, some, indeed, go so far as to call it the first proper experiment of the kind in the world. The Erie road started with a six feet gauge, and had to succumb in the struggle with all other American and European lines of four feet eight inches; but now a road boasting only three feet in gauge proposes to usurp the field, and is building all its rolling stock on a scale at least one-third smaller and lighter than that of other roads. The cars and engines employed on the new road look, we are assured, like playthings beside the ponderous ones employed on other routes; the rails weigh thirty pounds to the yard instead of fifty-six; the engines sixteen tons instead of thirty; the passenger cars, though they have eight wheels, six tons instead of eighteen, use those running on the broad gauge; and the freight cars two tons instead of nine. The cost of constructing this narrow gauge road has been about $15,000 a mile, while that of broad gauge roads going through a similar country is nearly $22,000. In some cases the grading, which has been done on the narrow gauge road for $30,000 per mile, would, according to the best estimates, have cost $60,000 on the broad gauge. The economy in operation is alleged as the main advantage of the new system of building; and the avoiding of what the Chicago & Northwestern Company confesses it has to undergo, namely, the losing of seven tons of dead weight for every one of live.

The narrow gauge system is receiving a very hearty echo from various parts of Europe, as well as in America. Russia has ordered a three feet six inch gauge for several important lines in that empire. There is a very useful and important road in Wales only two feet wide, but it is considered decidedly too narrow for the purposes of this country. The Norwegian roads are nearly all 1-2 feet in width. The British are inclined to decide in favor of three feet, as they think it secures the very smallest proportion of dead weight; and it is possible that it may be adopted as the American narrow gauge standard. Most of the new lines projected in the West are adopting or seriously considering the adoption of this principle. Roads in Kansas, the great Southern Pacific road in Texas, the road between Terre Haute and Cincinnati, branches of the Pennsylvania Central, the Arkansas Central, are all narrow gauge; and St. Louis is projecting an air line that shall direct to New York. The active leaders in the narrow gauge movement are Philadelphians and Coloradians; and the capital for the Western movement for the class of railroads comes mainly from England and Holland. The road from Denver to Mexico—the capital—is about one thousand miles, and it seems probable that New and Old Mexico will both be opened to us from Colorado before connections from any other part of the United States reach them.

We apprehend that the danger of a direct rupture between this country and England over the treaty of peace so recently ratified, has been greatly exaggerated by the diurge of the British press, which is very similar to that which followed Senator Sumner's speech, and immediately *preceded* the propositions for arbitration. England has all to lose in breaking her faith, and her statesmen should and do know that pecuniarily we can well afford to pay our own damages, indirect and otherwise, while retaining the power to throw our fleets of privateers into the arena of future European struggles. We shall require the simplest confirmation, ere we can believe that the Government of Great Britain will repudiate its most binding compact. A war with the United States in the present condition of English politics, would bring down the throne with a crash, and the shrewd advisers of the Queen will surely desire to mitigate the culminating folly of Mr. Adams's Alabama claims. John may get very red in the face, and thus feel, for after his fashion, but our Government need only be firm, and he will cool down without hurting anybody.

The Baptist Union thus speaks of "polygamy":—

This is now a power. Armies of strong men use it, and effect results which sword, and shot, and wheel, and screw, and steam can never reach. The agency is unique. These frail, transient beings, seem so slight and perishable, have so little body and material, and drop into obscurity so soon, that at first thought we take them insignificant and almost powerless. But when we consider how freshly they come from fountains of thought, how closely they are related to mind, how they convey current heart-throbs, purposes, and aspirations, reverence superseles our distance. They die here and there in slight brown graves of thoughts, transcripts of soul, the spiritual goodness of the heart, and seem like sacred things, but the spiritual thus material, almost alive in it talking.

There is what the Missouri Republican announces as the programme of the Schurz-Brown party:

"It has now gained the President and campaign with a platform that covers nearly every shade of Democratic ground, and it asks for the privilege of defeating Grant, and electing a Liberal Republican on that platform, [illegible] *the support which* [illegible] *is sought is absolutely unknowable.*"

The Republican goes on to exhort the Democratic party to make a temporary sacrifice to secure the speedy ascendency of their principles. This is frank, but in the present temper of the people toward Democracy, is it wise?

The excitement in Utah continues. Dispatches announce meetings demanding the removal of Judge McKean, and other meetings denouncing District Attorney Bates and endorsing the Judge. It is stated that serious charges are preferred against Bates.

Victor Hugo says that Thiers is a meaner man than Louis Napoleon, and prophecies a Prussian military tyranny for France. He looks upon Gambetta as the leader of the Republicans, and says France must look to him when the struggle comes between the Bonapartists and the citizens.

Gold opened at 110½ in New York, Monday, under the excitement caused by the Alabama question.

Speaker Blaine gave a dinner on Saturday evening to the recently married Representative Hale and wife. The table was exquisitely adorned with flowers, the bride bought before Mrs. Hale being so lovely as to attract the attention of all present. Among the guests were Miss Abigail Dockery of Hampton, Mass., Representatives Peters and Frye of Maine, with their wives, Representative S. S. Cox and wife, the Secretary of War, and Thomas Nast, the caricaturist.

The New York Commercial Advertiser hopes the proposed theological amendment to the Constitution will not prevail, for "at present nobody disputes the authority of Jehovah, but just so sure as its recognition is embodied in another amendment of the Constitution, the Democratic party will all go over to the Devil."

THE SHIZZED PROPERTY.—The Presque Isle Sunrise says: "the horses, sleds and apparatus which we noticed last week as being seized by Sheriff Johnson under the order of the Governor and Council forbidding lumber on No. 11, 3d range and brought out to this village have been receipted for by Mr. C. F. A. Johnson. Several of the teams have gone home into the Provinces. Others are owned in this vicinity and have been taken to their owners, and others have gone into the woods on other townships drawing in lumber."

THE CAMP GRANT MASSACRE. A San Francisco dispatch says the testimony taken on the trial of 100 Mexican papagoes and pimas, and seven Americans, for the massacre of Apaches at Camp Grant, Arizona, is published. It was clearly proved that the Apaches stole stock from Americans near Tucson, and were pursued and trailed directly to their camp, four miles from Camp Grant, and one of the Indians was killed while riding a stolen horse. The Indians fired the first shot at the pursuing party. The jury in 19 minutes returned a verdict of not guilty.

POLITICAL AND PERSONAL

Hon. Hocking Hunter died at Lancaster, Ohio, Sunday, aged 71 years.

Hon. Robert Brentlex Attorney-General of Maryland, died Saturday, aged 37.

Samuel A. Parker, State Treasurer of Rhode Island, died Monday morning of pneumonia, at his residence in New York.

The Kansas House have adopted a memorial to Congress asking the admission of Canadian lumber into the United States free of duty.

A letter from St. Petersburg states that the course of Cameron met the approval of his associates in the Foreign Office, where Secretary Fish is severely criticized.

President Grant and Vice President Colfax on Saturday visited the Union Orphan Asylum Fair at the Masonic Temple, Baltimore. During the evening General Grant was presented by the ladies with a splendid chair and also with a gift for Mrs. Grant. Vice President Colfax was presented with an elegant afghan for Master Colfax. The President and Vice President briefly acknowledged the compliments thus bestowed by the ladies.

NEW PUBLICATIONS.

THE LIFE OF JESUS, THE CHRIST, by Henry Ward Beecher. We have received part first of this work, an elegant octavo volume of 500 pages. Having been unable to give it more than a cursory examination, we select from many others the two following notices of the work from clergymen of this city:—

"From what I know of the author and from a cursory examination of the work, I can commend Beecher's Life as a work of great interest and value.

C. F. ADDEY,
Pres't. Maine Sta e College."

"Into his life of Jesus the Christ, Mr. Beecher has put a great deal of his charming manner of thought and expression. The book is having a deservedly wide circulation; and, for one, all ough I cannot commend his view of the person of our Lord, am ready to say that no book of the kind will be more acceptable than his to the *readers* as well as the *readers* is our Christian public.

W. M. B. ...BOUN,
Theo. Seminary, Bangor, Feb 2, 1872."

Mr. Chas. H. Arnold is canvassing this city and vicinity for the sale of the work. J. B. Ford & Co., New York, Publishers.

LATEST NEWS IN BRIEF.

The deaths from small pox in Philadelphia last week, were 145, a decrease of 11.

The heirs of John Slidell have brought a suit to recover real estate in New Orleans confiscated during the war.

Misses Mary and Kate Daley broke through the ice on the Ohio Saturday evening, near Cincinnati, and were drowned.

Remains of an ancient city were exhumed in the town of Mount Hope, Orange County, N.Y.

Another robber of the Adams Express was captured at Pittsburg, Pa., Sunday, and some jewelry and some other plunder recovered.

A special Mexican dispatch says that the bandits hung all the officers, including the leader, of the recent mutinous gang, captured at St. Fergo, about 3 miles from Matamoras.

A boiler explosion at the Tremont Mills, Lowell, Mass., Monday morning, demolished the windows of the engine house, but injured no one and caused no serious damage.

A foot of snow fell at Lancaster, N. H., on Saturday night and Sunday, drifting badly in some places. At Stratford two feet of snow fell.

Steamer Moses Taylor brings news of a heavy earthquake at Panama, Hawaiian Islands January 5th, and the Kilauea volcano was in active operations.

Twenty sailors from the American man-of-war St. Mary's, attempted to break in the Government Female Reformatory at Sydney, C. B. The ship's officers arrived and captured the rioters.

Manton E. Hoard, late Cashier, and R. A. Parson, late Teller of the R. I. National Bank of Providence, have been held in heavy bail to answer the charge of embezzling $200,000.

Gen. Crook has designated the 15th inst., as the day after which all Apaches found off their Reservations in Arizona will be treated as enemies. The General sent runners to inform all the tribes.

The ice became so tightly packed in the East River during Sunday afternoon, that many persons crossed from New York to Brooklyn afoot. The gorge gave way finally and the ferryboats resumed their trips.

Geo. C. Carpenter obtained a verdict of $2000 against the Camden & Amboy Railroad, for injuries received on the road in July, 1870. A stay however, was granted to the defence.

The French Assembly on Friday, by an overwhelming majority, passed a bill authorizing the Government to notify England and Belgium of the termination of the commercial treaties between France and these countries.

Schooner Antecedent of Stonington with granite for Williamstown, was wrecked on Eaton's Neck, L. I., in the terrible snow storm on Saturday. Winslow Nash of Westerly, R. I., the mate, was drowned, and the captain and steward nearly perished, being an hour on the ice. The cargo will probably be saved.

SLIGHT FIRE. About 10 o'clock yesterday forenoon the bottom fell out of a stove in the Pond-st. school house, scattering the coals in every direction and setting the floor on fire. The fire was smothered with snow by the scholars and neighbors, but the smoke and cold air let in by the open doors and windows necessitated a dismissal of the school until afternoon.

Special Notices.

Dr. E. A. Merrill,

From the Pennsylvania College Dental Surgery,

DENTIST,

Office No. 3 Bawsher's Block, Over Whig and Courier Office,

feb6 m Bangor.

Credit to whom Credit is due.

It having come to my knowledge upon several occasions that there are those who are deliberately asserting the contrary, I desire to make it publicly known that I am the ONLY dentist in Bangor who has a diploma, or who is a graduate of any Dental College whatever. I should not have been thus public were it not that if the fact be worthy of great efforts made by others there can be sufficient merit in the same for me to have it for my own.

An Appeal to Reason.

Health would be much more carefully guarded than it is at present, and the average of human life lengthened by many years, if common sense and the light of experience were accepted by the universal public as their medical monitor and guide. The true philosophy of health is simple. It consists in refraining from indulgences and imprudences which impair the vital forces, and in supplying any deficiency of vital power and constitutional vigor that may exist, by invigorating and alterative treatment. To reinforce and regenerate a feeble system, and to prevent a more vigorous physique from yielding to unhealthy and debilitating influences, Hostetter's Stomach Bitters is unquestionably the most potent of all vegetable purifiers. As a stimulant, it is the purest ever administered in medical practice; as a tonic and stomachic, the most infallible; as an anti-bilious agent, the safest and easiest, and as an appetizer and regulating medicine, mild and painless, yet irresistible. It is a protection against disease of every kind, and all seasons, and is particularly efficacious as a means of fortifying the system against the ailments generated by a raw damp, ungenial atmosphere. Hence its great value as a winter tonic and invigorant. No one predisposed to indigestion, biliousness, constipation, rheumatism or nervous headache, should ever be without the Vital Elixir. As a certain cure for country dealers are very anxious to deal their customers with "local bitters," of a worthless or pernicious character, which they represent to be equal or superior to the great national tonic, the public hereby *forewarned* against their "tricks of trade."

(Jan 18, 1871. Jan22 dawly3

The Cause and Cure of Consumption.

The primary cause of Consumption is the derangement of the digestive organs. This derangement produces defective nutrition and assimilation. By assimilation we mean that process by which the nutriment of the food is converted into blood, and thence into the solids of the body. Consumption will disease thus impaired, having the slightest predisposition to pulmonary disease, or if they take cold, will be very liable to have a consumption of the lungs in some of its forms; and I hold that it will be impossible to cure any case of Consumption unless that relaxing and good effect on all healthy assimilation. The very first step to be done is to cleanse the stomach and bowels from all diseased matter, and allow which, including these organs so that they cannot purify the blood, and then rouse up and regenerate the liver to a healthy action. For this purpose, the safest and best remedy is Schenck's Mandrake Pills. These Pills cleanse the stomach and bowels of all the dead and putrid matter that is causing disease and decay in the whole system. They will clear out the liver of all diseased bile, that has accumulated there, and arouse it into a new and healthy action, by which natural and healthy bile is secreted.

The stomach, bowels and liver are thus cleansed by the use of Schenck's Mandrake Pills, but there remains in the stomach an excess of acid, the organ is torpid, and the appetite is poor; the bowels, the lacteals are weak, and requiring strengthening, and in a condition like this that Schenck's Seaweed Tonic proves to be the most valuable remedy ever discovered. It is alkaline, and it will neutralize all excess of acid, making the stomach sweet and fine; it will give permanence tone to this important organ, and create a healthy appetite, and, remove, in the free use of Schenck's Pulmonic Syrup. The Pulmonic Syrup ripens the secretions, purifies the blood, and is readily absorbed into the circulation, and thence distributed to the diseased lungs. There it expels all morbid matter, whether in the form of tubercles or in the form of ulcerated matter to expel all the diseased matter in the form of free expectoration, when consumption is in the last stage, healing and purifying properties of Schenck's Pulmonic Syrup, that all lungs and cavities are healed up sound, and my patient is cured.

The essential thing to be done in curing Consumption is to get up a good appetite and a good digestion, so that the body will grow in flesh and get strong, for a person has diseased lungs, a cavity or abscess there, the cavity cannot heal, the matter cannot ripen, so as to get up the sputum below par. What is necessary, to cure is a new order of things, a good appetite, a good digestion, the body to grow in flesh and get fat; then Nature takes hold, and whether will heal the matter will ripen and the liver off in large quantities, and the person regain health and strength. This is the true and only plan to cure Consumption, and if a person is reduced so far that the lungs are entirely destroyed, or even if one lung is entirely gone, if there is enough vitality left in the other to heal up, there is hope.

I have seen many persons cured with only one sound lung live and enjoy life to a good old age. This is what Schenck's medicines will do for you, if you persevere. They will clean out the stomach, sweeten and strengthen it, get a good digestion, and give Nature the assistance she needs to clear the system of all the diseases that is in the lungs, whatever the form may be.

It is important that, while using Schenck's medicines, care should be exercised not to take cold. Keep in-doors in cool and damp weather, and on cold nights do not take out-door exercise only in the genial and warm sunshine.

I will be distinctly understood that when I recommend a patient to be careful in regard to taking cold while using my medicines, I do not for a special reason. A man who has but part of his lungs left, and that in a diseased state, is more liable to a cause than one who has been entirely cured, and is perfectly free from disease. But how long is there for him in danger of a fatal return of the disease, if he is careful to avoid all exposure, and to keep the system against the ailments generated by a raw damp, ungenial atmosphere. Hence its great value as a winter tonic and invigorant. No one predisposed to indigestion, biliousness, constipation, rheumatism or nervous headache, should ever be without the Vital Elixir. As a certain cure for country dealers are very anxious to deal their customers with "local bitters," of a worthless or pernicious character, which they represent to be equal or superior to the great national tonic, the public hereby *forewarned* against their "tricks of trade."

[illegible]

Five Powder Mills Blown Up! SIX PERSONS INSTANTLY KILLED! HALF A MILE OF RUINS!

SPRINGFIELD, Ohio, Feb 5 Five powder mills belonging to the Miami Powder Co, located between Yellow Springs and Yellow Springs, on the Little Miami Railroad, exploded this morning Five men were killed and another is missing supposed to have per shed. The ground is strewn with timbers and debris for half a mile around At Yellow Springs thousands of windows were demolished. The city was considerable shaken, sending the inhabitants into the streets in great alarm

FEMALE TRAGEDY

NORWICH, Conn., Feb. 5 A man named William Erling in the employ of Dr Samuel Johnson has for some time had a passion for his employer's daughter Jane, and frequently sought to marry her, but his suit has been discouraged by the young lady and her family Erling who has a violent temper, his morning took a heavily loaded shot gun and went to the sitting-room, where the young lady was lying on the sofa, and discharged both barrels into her head, inflicting probably fatal injuries then turning to Mrs. Johnson, who witnessed the scene, struck her a violent blow on the head with the breech of the gun, making a painful, though not dangerous wound. The murderer then went out of the room and supposing he had escaped, the family sent a messenger to the city where he had money deposited in the bank, to give warning of the crime He however, went to his room in the lengthened building, locked himself in and cut his throat from ear to ear When the door was burst open shortly afterward he was found dead on the bed with a razor firmly clenched in his hand. The affair created an intense excitement in this vicinity. Dr Johnson's family are highly respectable and widely known Erling came from New York Four 13 years ago and has lived mostly with Dr Johnson where he was treated as one of the family He was a valuable man, except being passionate, revengeful and addicted to occasional extreme excesses.

Later accounts state that Miss Johnson died at nine o'clock this evening

THIRTY SECOND CONGRESS—SECOND SESSION.

WASHINGTON, Feb 5

SENATE.

The credentials of Senator-elect Ransom of North Carolina, were referred to the Election Committee A petition against the abolition of the slave duty was presented, but Mr Kellogg stating that it had just been received by telegraph from Louisiana, reference to the Finance Committee was not granted

At the expiration of the morning hour the amnesty bill came up

Mr Robertson moved to lay the pending bill on the table and take up the last amnesty bill passed by the House Lost 20 to 31

Mr Carpenter offered a substitute for Mr. Sumner's pending amendment, the supplementary civil rights bill, providing penalties for any invidious distinction on the par of corporations, etc, on account of race, color, nationality or previous condition of persons claiming public privileges

Mr Carpenter said that the difference between this and Mr Sumner's bill, was in two points First, the substitute omitted reference to churches, and second, it based the right of federal interference upon the fact that institutions were supported at the public expense and so as Mr Sumner's bill did upon the mere fact of incorporation.

Mr Sumner declared the substitute an emasculated synonym of the original and advocated his own bill He objected especially that Mr Carpenter's substitute failed to prohibit race distinctions in the jury box and in churches, and insisted that the spirit of the Declaration of Independence should be realized by legislation for equality before the law

A phrasemaker debate ensued between Messrs Sumner and Carpenter, after which at four o'clock the Senate went into Executive session and soon after adjourned

HOUSE

A large number of bills were introduced, among others—Providing satisfaction for French spoliation claims, relative to the Massachusetts fisheries, for the improvement of Providence river abolishing the Freedman's Bureau

Mr Randall of Penn., moved to suspend the rules and pass the bill removing political disabilities from certain classes named, provided that the benefit of the act shall not extend to any persons although included in the foregoing classes who resigned their seats as members of Congress or who resigned as officers of the army or navy and afterward joined the rebellion as members of a convention in any state which adopted such ordinance.

Mr Pierce inquired whether the bill would remove the disabilities from any but those who were already included in the bill that had passed the House.

Mr Randall replied that it did not relieve nearly as many, but it only applied to small officials in towns, villages and counties, that it was entirely unobjectionable and relieves only those who could have had no agency in promoting secession

Mr Hulburd of W — It seems to me that it is objectionable in the previous

Mr Conger of Mich—Does it provide for making applications for relief

Mr Randall—It does not, but I have no objection to an amendment to that effect. I want public offices in the South run by intelligent people and by people who were really aligned into the rebellion

Mr Sargent of Cal, offered a proviso requiring the persons relieved to take the oath of allegiance to the United States before the Clerk of the U S District Court in which they reside The amendment was agreed to, and the bill passed without the yeas and nays

Mr Banks of Mass, from Committee on Foreign Affairs, reported a bill to carry into effect the provisions of the late treaty with Great Britain relating to the fisheries. By consideration was assigned to be third Tuesday in March

A motion to suspend the rules and pass the bill failed, yeas 80, nays 70, not two thirds, and the motion was carried

Various motions were made and votes taken by yeas and nays in order to consume time and stave off the drawing for seats

Mr Peters of Me, moved to suspend the rules and the adoption of a resolution declaring that the honest patriotism and most enlightened public policy demand of all political parties and of citizens, acquiescence in the 14th, 15th, and 16th amendments to the Constitution and such reasonable legislation of Congress as may be necessary to make them in their letter and spirit the most effective Agreed to, 120 to 51

Mr. Brooks of N Y, moved to suspend the rules and adopt a resolution recognizing the 13th, 14th and 15th amendments as valid parts of the Constitution Agreed to, 106 to 52

The Weekly Press Savage and Bellicose!

THE QUEEN'S SPEECH TO PARLIAMENT!

THE PRESS COOLING DOWN.

LONDON, Feb 5 The one of the press on the Alabama claims has slightly moderated. All look forward to the Queen's speech to morrow for the positive announcement of the stand taken by the Government with regard to the American claims.

THE "TIMES" ARTICLE.

The Times, in a leading article Saturday, uses the following language:—"We repudiate the construction which has been put on the Treaty of Washington in the American case, and must withdraw from the arbitration if this construction is insisted on. But if this point is rectified, we are ready to stand loyally by the treaty."

COOL FOR THE SEASON

The Times to day is afraid that an attempt to solve the Alabama difficulty may prove abortive, and hopes that a failure will not excite bitter feeling in America.

MORE CAUTIOUS COUNSELS.

The Post this morning thinks it will be time enough when the United States refuses to withdraw its demand for indirect damages, to decide upon future action. Menace are ungracious The same tone pervades the articles of other morning journals to-day.

THE "TIMES" COMPLAINS

that the American case has been translated into the Continental languages and scattered broadcast over Europe. If the intention is to make restrictions impossible, no method could be chosen which could prove more effective Our expectation of a successful issue continues. The Times is

EXTREMELY MODERATE

It says—We do not give up all hope, but a misunderstanding once has been established, there can be no sequel other than the abandonment of all reference of claims to a Board of Arbitration.

THE WEEKLY PRESS,

most of which went to press Thursday or Friday, about the time the flurry of indignation over the American case culminated, was savage and bellicose, especially the Saturday Review They generally took the ground that the United States preferred to have no settlement, and wished to hold these Alabama claims as a perpetual menace for political uses

THE QUEEN'S SPEECH

The Daily News says the Queen, in her speech at the opening of Parliament to-morrow will express a wish that the Tribunal at Geneva may be able to proceed with its duties on a basis acceptable to the English Government

A MASS MEETING

of the republicans and supporters of Sir Charles Dilke will be held to-night in Trafalgar square, as announced A great demonstration is expected.

THE PRINCE OF WALES

attended church at Sandringham yesterday

THE PRICE OF TYPE. The American Newspaper Reporter and Printer's Gazette, published by George P Rowell & Co, of New York, the celebrated advertising house, publishes the following statements relative to the operation of the high tariff on printing types, which it regards as defeating the object of its imposition by preventing revenue and failing to protect the greater interest of printing industries. The Reporter has given more practical attention than we have to this particular subject, and we give its views as we find them —

The tariff upon printing type is prohibitory in its working, and hence the Government receives no income of consequence from the importation Of course the price charged by American founders is equivalent to the foreign price and the tariff added together.

In order that the printers and publishers of the country may know exactly what they pay in the form of bounty to the type founders of this country, we subjoin the price of type in Toronto and New York

Size.	Toronto.	New York
Nonpareil, per lb.,	62c.	76c.
Minion, "	50c.	68c.
Brevier, "	44c.	64c.
Bourgeois, "	40c.	60c.
Long Primer, "	36c.	56c.
Small Pica, "	36c.	54c.

Thus it will be seen that the American printers pay for this body type an average of 33 cts per pound, while the Canadian printers pay an average of 4 cts per pound. That is we pay fifty per cent more than we [illegible]

The Government duties cannot be reduced [illegible] manufacturers [illegible] protection [illegible] greater industrial interest shall have precedence. Take articles entering into the consumption of great manufacturing interests shall be admitted free.

The annual production of printing in the United States is $75,000,000, employing over 30,000 skilled mechanics, while the annual production of type founding is $1,500 000, employing about 1,200 mechanics. If we add to the production of printers the advertising income of the newspapers, the production will amount to over $100,000,000 annually.

Will this enormous business longer submit to be subsidized for the benefit of a monopoly?

It has been whispered that now that the subject is agitated by the Press of the country, American founders will come down in the price If they do—so much for so much But let the Press demand the removal of the duty on type, and then no *three men* can get together and say how much the 30,000 printers of the United States shall pay for their tools to work with

LOCAL AND OTHER ITEMS

—No item of interest in the police court yesterday

—The country roads are badly obstructed by snow drifts.

—Mrs. Close, who was so terribly burned on Sunday, is said to be beyond recovery

—The criminal term, Supreme Judicial Court, commences to day, Judge Kent, presiding.

—The Ellsworth stage, due here at 5 P M, Sunday, did not arrive until 6 o'clock last night, being delayed by the snow

—A number of well known horse men from Boston and Brighton are stopping at the Exchange, looking up "speeders" in the country

LECTURE. Dr Pond's fifth and last public lecture will be delivered in the Seminary Chapel this evening, at 7½ o'clock. Subject "Abelard and Eloise."

—The Maine Central baggage, express and mail cars Nos 1 and 3 have been thoroughly rebuilt and repainted, and look as bright as a new gold dollar.

—The annual meeting of the Bangor Boom Company was held yesterday They adjourned until Saturday afternoon at 3½ o'clock, when the usual business will be transacted.

—Dore, the one armed horse thief, and the young woman who was arrested with him, will be examined Thursday morning at 10 o'clock at the police court.

—Mrs Keith, who sprained her ankle on Murry's corner, Saturday afternoon, is quite severely injured It will be some weeks before she will be able to walk without crutches It is a very great misfortune to her just at this time

SALE OF GUN HOUSE AND LOTS IN BREWER. This property was sold at auction yesterday by R S Prescott, to John K Sanborn, Esq, for $375 00. The proceeds are to be expended towards the erection of a soldiers' monument in that town

—The Machias Republican says that Beckett and Mosely, the supposed Burglars, were short at Stephen at last accounts They were short of funds, and had sold their weapons for money to buy rum with, and the Police Officer thought he would have them shortly

—The Democratic State Committee will meet in Augusta on the 7th of next month or the purpose of organizing and fixing upon the time and place for holding the next State Convention It is probable that this city will be selected as the place

RUNAWAY. A horse, with sleigh at noon, belonging to H W Spratt of Brewer, ran from G W. Spratt's stable yesterday after noon, He turned down Central street, and was stopped on the bridge, but not till he had changed the sleigh into first-class kindling wood

—The E. & N. A train from St John was nearly an hour and a half late at Vanceboro', yesterday, owing to snow drifts on the line, but this end of the road having been cleared off by two engines and a snow plow early in the day, the train arrived here only 45 minutes late, The Maine Central was also well cleared of snow, and the trains run on time.

—The snow blockaded Lime-st in several places, and the efforts of teams to get through the drifts yesterday were productive of considerable sport, and a little dangerous, withal One horse broke a whiffletree in his struggles and came near smashing a nice sleigh, several sleighs were overturned without damage, and one young man stood on his head several minutes in a brand-new hat, which was several feet below the surface of the drifts

THE DOCTOR OF ALCANTARA. The performance of this charming opera in Music Hall this evening will doubtless draw out one of the finest audiences ever gathered in that elegant new structure, as every arrangement has been perfected to make the presentation the very best The seats have, we believe, all been sold, and to give those of our citizens who were unable to procure tickets an opportunity of seeing the opera, another performance will be given to-morrow evening, the sale of tickets to which commences at Bugbee & Co's this morning

SNOW SLIDES were frequent and dangerous yesterday, and the city ordinance requiring railings on the roofs ought to be enforced before anybody is killed or maimed by them An avalanche from a roof on Main-st. yesterday frightened a horse, which whirled quickly and started to run A lady who was in the sleigh attached to the animal, was thrown out and dragged some distance, but hung bravely to the reins until she stopped the horse She was badly bruised, but fortunately escaped serious injury. Another snow slide on the lower bridge broke down Chapman's awning, luckily when no person was under it. An old man was knocked down by a slide on Exchange-st. late in the afternoon, and badly bruised.

BOYNTON'S LIGHTNING SAWS. Having received many inquiries in regard to these saws, for which Messrs Fogg & Bridges are the Agents, we publish the following letter which explains itself

E M Boynton, esq, Proprietor of the Light ning Saw, No 30 Beekman st, N. Y.

DEAR SIR I have caused thoroughly to be tested in steady practical use your Lightning Cross Cut and Wood Saws. I find them all they are recommended, being superior to any other in speed, ease and simplicity, and especially in perfect clearance For the past month we have used your cross-cut in sawing up white oak and hickory timber for fuel. I think the saw in the hands of common men cuts twice as fast as any other I ever saw and it saves its cost over the axe every three days use I consider it an invaluable article for every farmer

I have tried the best of other saws all my life, as my father formerly cut much shipbuilding timber I can truly say I would not use any other saw as a free gift.

JOHN CRANE,
President of Farmers' Club

Elizabeth, Un on Co. N J.

ST CROIX AND PENOBSCOT RAILROAD. On a recent visit to Calais, we enjoyed a very pleasant excursion over the line from Calais to Princeton, through the courtesy of Supt. W W Sawyer, who provided a special train for a party of friends. Some twenty ladies and gentlemen made a most agreeable company, and the polite attentions of Mr Sawyer and his attractive and vivacious lady, to whom we are indebted for numerous other courtesies, rendered the trip exceedingly enjoyable. At the annual meeting, Jan. 30, Geo. M. Porter, Esq. was re-elected President; W. W. Sawyer, Superintendent, and S. Black, Clerk. A survey of the proposed extension has been made from Princeton to Grand Lake Stream, a distance of 18 miles at a cost of about $2200, and measures have been taken looking to the speedy setting forward of the line, which is necessary to connect with a road to run that from Princeton, through Calais, to Woodstock, New Brunswick, and intermediate towns in that province.

THE "KALADIR" IN THE ICE. *Mr. Editor*—I notice in your paper a dispatch announcing the arrival at Belfast of the steamer *Kataadin* from Boston, at her usual hour Saturday, and I send the following account of her battle with the ice, which she met at Owls Head Rockland Camden, Belfast and Searsport harbors were all blockaded with solid ice, and the western bay from the Main to Long Island was a transparent sheet. In going into Belfast the ice was comparatively thin, until the boat reached McGilvery's ship yard, one mile or more from the wharf, and it took her three hours to get from there to her wharf Horses and sleighs, and it was estimated one thousand persons, were on the ice, in the immediate vicinity of the boat while she was fighting her way into this winter harbor. The boat succeeded in making all her landings on the river except Searsport, found some ice in Buckesport eddy, but at Winterport came to her wharf with as much ease as she would in July, as our wharf and harbor are free from ice, and our river has not been frozen over this winter. A vessel left Rich's wharf last evening, loaded with potatoes bound to Boston. I understand that Franklin Treat, Esq, of Frankfort, has a cargo of corn frozen in at Belfast. The Katahdin was detained by ice five hours.

Winterport, Feb 5th. A.

A LONG CHASE. The old nautical proverb—"a stern chase is a long chase," was exemplified last week by the search made by officer Sweetser and Mr. J. B. P. Wheelden for Dore and the Biggins girl who stole the last named gentleman's horse, sleigh and robes two weeks a-go last Sunday, Jan. 21st. Starting on the next Saturday, Jan 27th, Mr Wheelden and the officer took the E & N A train for Lincoln, arriving about half past 11 o'clock P. M, where they hired a team and went on to Winn that night. The next day they went to Lee and Springfield, hearing at the latter place that the thieves had been there. Six miles beyond, in Prentiss, they found where the runaways stopped over night, and went on twelve miles through a piece of woods. The thieves were then tracked through Danforth, Weston and Orient, where they crossed the line, and stopped one night at the house of a man named Hounsey. From there they crossed Eel lake, 8½ miles in width, on the ice, and 6 miles further on again put up over night at James Kennedy's. At the Monument way office, Dore sold the robe Leaving Kennedy's the thieves took dinner in the Harden settlement, and then went through Canterbury towards the northwest, afterwards going to Eel river village, where the pursuers lost track of them, and concluded to follow down the St John river. This decision was fortunate, as about 10 miles below, the track was again struck and followed, until another stopping place of the "travellers" was found, in a log hut Thence the pursuers went to Fredericton the same night, a distance of 34 miles, but found that Dore had not been there, and returned some 20 miles the following day on an unsuccessful search. Going back to Fredericton once more, Messrs. Wheelden and Sweetser started down river, finding six miles below, one more lodging place, thence to Oromocto, 12 miles, thence to Shirley settlement, where Dore stopped another night. From this lodging place Dore and the woman started for Gagetown, but losing their way, put up for the night in Benton parish, the next day going upon the ice and down river some 11 miles, arriving at Gagetown about 3 o'clock and stopping at a tavern—the first they had been at during the trip—where they remained until Thursday, intending to start for Mirmachi on Friday; but the pursuers, after a chase of 250 miles, were upon them, and they were captured about 2 o'clock Thursday afternoon. They made no resistance—the woman saying she didn't care where she went as long as she had enough to eat and drink—but accompanied their captors to this city, as we have previously stated

Last night Mr. Wheelden received a letter from Mr. Wm. Cooper, proprietor of the hotel in Gagetown, saying that after Dore and the girl left, he found they had taken a nice blanket from the room they occupied, and cut it up for some kind of a garment, leaving the scraps and pieces in the room

CITY AFFAIRS.

IN BOARD OF ALDERMEN,
Feb. 5, 1872

Resolve relative to extension of York street, endorsing former action of the City Council in the matter, unanimously passed.

Communication of Celinda L Soule, asking to be relieved from damage and expense from widening and cutting down Willow street, referred to Special Committee, and Aldermen Clark and Strickland appointed

Petition of E & N. A. Railway Co. for permission to remove passenger station at foot of Exchange street, referred to Aldermen Strickland

Report of Special Committee on subject of aid to the Northern Aroostook Railroad Co, accepted, and the passage by the Legislature of the act in aid of same recommended [The bill and the modifications made by the committee have already been published]

Report of the Street Engineers on grade of Broadway from old railroad crossing to Center street, accepted, and grade of same established.

IN COMMON COUNCIL.

Resolves relating to York street slip unanimously passed by yeas and nays

Report of the Committee to whom was referred the Loan Bill of the Northern Aroostook Railroad, accepted, and the passage of the bill by the Legislature recommended

BUSINESS ITEMS

VERY CHOICE INVESTMENT. We offer a very limited amount of EIGHT per cent Bonds of the City of Dayton, Ohio—*Three quarters* of all Bonds issued by the City of Dayton are held by Savings Banks. By the Constitution of the State of Ohio cities and towns are expressly prohibited from issuing Bonds to Railroads, hence all issued are strictly for municipal purposes. The *assessed* value of Dayton is $10,000 000, and its total debt only $650 000. Parties seeking thoroughly first-class securities for investment will do well to call at once and learn further particulars. BOWLER & MERRILL,
Bankers and Brokers 142 Exchange street, Bangor. 3t

Few are aware of the importance of checking a common cold or cough in its first stages, before it has an opportunity to work upon the lungs to such an extent as to produce serious results. The best remedy for this checking, healing, and curing, that we know of, is ADAMSON'S BOTANIC COUGH BALSAM Sold at 35 cents a bottle by Druggists and Medicine Dealers. jan31 eodlw&w1

MR. FELLOWS is daily in receipt of letters of inquiry, from various parts, respecting his Syrup of Hypophosphites One recently received, leads to the belief that the public mistake his meaning in reference to its effect in imparting superior energy to the mind. Where the intellect has been impaired by kindred causes, the use of the Syrup, together with proper precautions in the use of food, clothing, exercise and rest, will restore full power to the brain and nerves. Superiority of genius consists in great capacity of brain for assimilating material from every quarter, and of developing in proportion, but as by far the greater number are not well endowed by nature, consequently lacking this capacity it would be quite impossible to find cranium space for material necessary to constitute the brilliant genius. Hence, although the Syrup will assist in restoring the mind which is lost, it cannot change a natural born idiot into an intelligent man. 4

Not among the least of the innumerable properties of Miss SAWYER'S SALVE are its beneficial effects on the hair. Rubbed on the scalp in five or six different parts it promotes the growth of the hair, prevents its turning gray, and, if bald spots, it produces a new growth of hair. No lady should be without this invaluable article as an indispensable cosmetic for the toilet. It eradicates dandruff and disease from the head, and blotches and pimples from the face. 4eow

LASTING LOVELINESS Twenty years ago when paint, pearl powder and enamel were ruining the complexions and destroying the health of ladies of fashion, HAGAN'S MAGNOLIA BALM was brought out as a pure hygienical cosmetic, guaranteed to restore bloom and beauty to the skin From that time to the present it has been continually rising in public estimation as the safest and most unexceptionable preparation of its class In stead of producing an artificial, metallic surface like the deadly enamels, or wilting the cuticle like poisonous fluids sold under various names as "beautifiers," it keeps the skin as soft as velvet renders it as smooth and glossy as satin, and imparts to it that delicate, rosy tinge which is the *beau ideal* of complexional loveliness. This exquisite chromatic effect is not transient By applying the Balm daily it may be prolonged from youth to age. A lady who purchased the first bottle of the article nineteen years ago, writes to say that her complexion at forty is "purer, clearer and more brilliant than it ever has been," and she attributes its beauty solely to the daily use of HAGAN'S MAGNOLIA BALM

A PERFECT SEWING MACHINE Customers should examine the "Keystone" before purchasing, at P. C NICHOLS & Co

LYNDE HOTEL Travellers have every reason to feel grateful to the proprietor of Lynde Hotel, for he has furnished them a comfortable home, which was exactly what was needed in that locality.

'Good morning, John, where are you going?"

TO CHASE'S Clothing Store, of course, where everybody who wants to buy Clothing cheap should go.

Are you in want of a suit of Clothes? If so, go to Chase's and get a suit, and if you get them there, they will be made good and durable and when he sells a person a suit of Clothes he sells them in so satisfactory a manner that when they want another suit this is the store where they will buy them

Do you want your clothes made up in better style than any has obtained elsewhere? If so, remember that Chase's Store, keeps the neatest styles of goods, and they are made up be far than any of his competitors can make them. Bear this fact in mind, and tell it to your father, mother, son cousin, second cousin, and to all your uncles in the country, for although far a mere stubborn thing to get over, nevertheless it is the good news we should be spread it is a lamentable fact that virtue gobbles up its own reward. You can save forty per cent and get a first-class garment, for a small amount of money. He only asks you to satisfy yourselves before you buy Go and see the goods and learn the prices, then price the same class of goods in the city or out of it, and satisfy yourselves that it is as he says Any garments bought at this store can be returned, and the money will be refunded if not perfectly satisfactory and not soiled. He keeps a line of nice and durable goods well adapted to farmers' wants and calls their special attention to his stock He proposes to deal fairly and honestly with all men, and thereby hope o merit a good share of the patronage of the city and country Also, he has custom made garments of every description. Don't fail to go there The people are fast finding out that the great sales of Clothing at Chase's Clothing House is no humbug, he does all he advertises to do Clothing of superior quality, with every new style of goods in merchandise, farmers, mechanics, and all classes and ages of boys and men, is now to be found at A. P Chase's new store, which is noted for low prices and upright dealing Prof CHASE is ever at the board where he always gives his customers good fits. Remember the place, *No.* 1 Kenduskeag Block, East end Kenduskeag Bridge Give him a call. jan23

Nature is completely relieved from the prostrating influences of kidney, bladder and gland diseases, mental and physical debility, diabetes, gravel, female weaknesses, uterine complaints, and, in fact, all maladies of the urino-genital organs, in either sex, by partaking of SMOLANDER'S BUCHU, which has proved itself to be valuable vegetable remedial agent.

NOT ONE FAILED IN 25 YEARS

The New Year finds the LIGHTNING SAWS universally in demand in the American market No manufacturer of saws has dared to compete with them, although at the American Institute Fair each year a number of superiorities of the best competitors Saws The $500 offered all new inventions for public contest is unclaimed in each one

All teeth are cutters and sharpened alike All Saws warranted to cut "much more" than any other

The large increase of the business has compelled us to add to our factory a new department for the manufacture of five thousand LIGHTNING cross-cuts per month, and hope to be able to fill all orders promptly

The supply has been unequal to the demand for the LIGHTNING BUCK SAW but hereafter we will endeavor to keep a good assortment on hand The sale of several thousand dozen of the above named saws causes belief that they are the best hatchet in the market All Lightning Saws are finitely polished with mirror gloss, the cross-cuts with directions for filing using &c

Each Lightning Saw will cut and not bind on an inch at no less than twenty thousand times to one imperfect, so thoroughly is the principle of the theory of their go, but for the benefit of those who like them we can not set and use a thin saw, a guage heavier (than 16 gauge) will be inserted to order At a co-enlargement of dust space, no year ago no complaints of clogs, so has it resulted The light Saws are equally adapted for large and small timber, soft or hard wood, but soft timber requires saws to be set wider Lightning Saws are all set and sharpened ready for use and can be sent out any two gauges thinner on back

"THE GREATER INCLUDES THE LESS"

Note extra steel, a lighter thin saw is interested with old Y outlined on 8 inch and 10 inch Lightning Saws, that they may be recut, rivetted to some adjustable of the old Y with no proof so most by all the saws

This will differ from all the well-known cutting-resembling Saws in use. Filing lightning teeth as usual beveled blade for cutting, while the saws only need by all others set Saws and not sharpened, requiring to be shorten down and are left [illegible] of saw plate as they do not cutting The light Saw is designed to cut timber by different section in the ways If one pull or push to wear to cut any of one the other, there are would indicate [illegible] Many of the Inventions and Patented Homes in America now and my goods New Circulars of worthless infringements, few [illegible] legal redress under Patents, Trade Mark and Copyright

NEW-YORK AM INSTITUTE FAIR BUILDING Nov 4 1871

E M BOYNTON 78 Beekman st New York—This certifies that I saw the Light Saw cut Saw, which I had, by two men, sawed at the Fair Sight in and saw cut of a half inch continuously in two minutes and the cut is [illegible] of the old wood in less than half minute I am satisfied that for all purposes for cutting logs and small timber your cross-cuts and Saws have no rival as speed, ease and simplicity

I believe their universal use would save a vast amount of money and time at Lightning bolt of mill use or men J W LEAL
Superintendent and Engineer American Institute Fair

N B These extraordinary testimonials are quoted merely as proof what should be, but our claim is given for the old Y Patent process used by no other saws

Honest hardware men will procure the genuine for their customers even if they are tempted with inferior goods and where they do not keep them, Agents are wanted in every town County and State Saw sent on receipt of $3 Expressage will cost from 40 cents to $1 5 miles this side of the Mississippi River by special contract

Sales Million of Axes are used for cutting wood, a Lightning Cross Cut Saw will do the work for two, will cut five times as fast and no axe Why not try them? Also the Lightning Saw 4 1 6 feet long, suitable for general use

See the name and trade mark on each saw

BUILDING A HOUSE WITH A TEA-CUP

[illegible]

"Let Katie alone, I say," commanded Granny Gray to her [illegible] son. "Why did you remove the stand?"

"Well, dear Granny, only because I really wanted to see it."

"See it!" said the very handsome woman, with whom the aspect of youth yet lingered. "Why, darling, surely your eyes are not in the tips of your fingers. You could see it without removing the shade. You mean, I suppose, you wanted to feel it."

Lucy laughed. In common with all the [illegible] in Wood Peacle the name of the village in which Mrs. Gray resided—she called her "Granny" was the pet name, the name of love, by which all the young people, boys and girls, recognized Mrs. Gray. Lucy Lynn was one of the good woman's special favorites. There were steadier and better girls in Wood Peacle, but there was not one gifted with a gentler heart or a kinder nature than Lucy Lynne.

"I do not know what I wanted," laughed Lucy, "but you all make such a wonderful fuss about what I say, that I thought I should like to know why."

"You know my husband was a carpenter—indeed, I may say, as though he does not work as hard as he used, with his hands, I think he does so with his head, and I hear that his power of calculation is clear and rapid."

"Oh yes," said Lucy; "I have heard Mr. Gray say that temperance kept his brain clear."

"I married him when I was very young," continued Mrs. Gray, "some said too young to take the cares of this world upon me.

"We had everything very tidy and comfortable, and my husband had plenty of work—I did not think it then, but I had cause to mourn it afterward, that though I loved my husband, I was not as careful in my early married life as I should have been of his little home comforts. His dinner was just always ready to the minute, as it ought to have been; nor was the hearth swept and the room tidied up, as it is while day is one that it is when her husband comes home from his day's work. The hour or two of evening, which is the only time of the day he should be the happiest of the [illegible] and, and cannot fail to be so if a husband, however small, is properly cared for. During the early days of our married life we used to [illegible] reading a portion of the Testament, and sometimes singing the verse of a hymn, before we retired for the night. Mr. Gray had a beautiful voice," said the old lady, with a very pardonable pride, "and as you know, he leads in the church still. After we had been married about a year, it pleased God to make an addition to our family. That should have increased my dexterity, so that my attention to my child should not have been taken from my husband's pleasures and comforts of his home; but instead of that, my new duties required me bodily and often mentally. My husband liked to see a clean and tidy room, [illegible]

"Katie," he used to say, "if only ask to see your hair brushed and shining, and your apron and cotton gown as they used to be—[illegible]." He would often take the broom and sweep the hearth, and make up the fire, and put the white cloth on the table for supper, and though I knew that was what I ought to have done before he came home, yet—I don't know how it was—I did not like it. I had grown rather too fond of gossiping with neighbors who were idler than myself, and carrying my child—who certainly was a beauty—about to have it admired. That was our first baby—our dear blue-eyed boy. I almost seemed fonder of showing him than I was of his mother.

"Lucy looked at Mrs. Gray with wondering eyes; for she was the neatest and tidiest old lady you could see anywhere, and was held up as a pattern to all the young girls in the neighborhood.

"I do not know how it was, when I was gaily but we often forgot to read our chapter. My husband did not continue as good husband had been during our early days, and his I did not see how much of the wrong faults for not making him comfortable, as I had not done at first. He was very fond of my baby, but the poor little child grew fretful and peevish. He could not bear to hear it cry. When it began to scream, he would take up his hat to go out. Very little it ought to have seen us [illegible] application that our infant child restored to health seemed to break upon our prayers, and instead of the hymn—except [illegible] Sunday evenings—my husband [illegible] I told you, a beautiful voice, we spent our home a new song which he wished to learn, that he might sing [illegible] Club at the Blue Lobster.

"Slowly, surely he began, instead of returning home in the evenings, to attend these club meetings. Then I saw more danger, as I how foolishly, if not wickedly, I had acted, in not attending to my first duty.

"One night I never [illegible] rose determined to go [illegible] dried out of the way [illegible] return early. There [illegible] scolding wife, more [illegible] than finding the [illegible] warmth and tender [illegible] steaming of damp [illegible] manager would get [illegible] his return.

"I had made such good [illegible] darling," said the [illegible] to my owning [illegible] now, entreat [illegible] them. I was too [illegible] days, of relying entirely [illegible] own will. Well, dear, I [illegible] matter of another to call [illegible] old gossiping woman and [illegible] and wasting my time and [illegible] clock strike, and knew [illegible] than half an hour [illegible] him uncomfortable [illegible]

"[illegible] Mrs. Gray. "I saw his hard hope over it, and the same moment his bloodshot eyes rested on the baby, whose little one-clutched arm craved for its food, [illegible] silent messenger at that moment must have entered his heart; his arms fell down and without an effort to support himself, he sank into a heap upon the floor in the midst of the destruction he had caused. I tried to get him on to where once a bed had been; we had still a mattress and a couple of blankets."

Lucy did not speak, but her eyes were overflowing, and she took her hand into that of Mrs. Gray. The good woman soon resumed her story:

"I saw that even there sleep came to subdue and calm him. My poor child ate her supper and fell asleep, and my sick boy certainly was better, and also slept. I crept about, gathering up the broken pieces and endeavoring to light the fire. A kind lady to whom I had taken some sound pieces of needle-work that morning—for several weeks I had been the only bread winner—in addition to the eighteenpence I had earned, gave me a small quantity of tea and sugar; and an old pewter tea pot that, however, battered, would not break, seemed to me a comforter. He would awake, I knew cold and shivering, but I hoped not until the fire, Lobster and every other house of the same description were closed, and then his thirst would compel him to take some tea. I heard the church-clock strike one, and it was a joyful sound; no open doors, even to old customers, then. I knelt down between the children's blankets and my poor shattered husband, and prayed as I never prayed before.

The CHARACTER of the Land Grant of the Northern Pacific Railroad Company, as a whole, is really acknowledged by all persons acquainted with the different Grants, to be SUPERIOR TO THAT OF ANY OTHER ROAD; but even if the average price per acre of its land sales should not be above the lowest average of all the land grants, which is but $3.07 on the Kansas Pacific Road, still at the low figure up the 25,000 acres bond to redeem each $50,000 of bonds, there would be a surplus of $25,750 over the amount of bonds that can be issued on each mile of the Northern Pacific Railroad.

During the month of December the Northern Pacific Railroad was opened for passengers and freight to the Red River of the North, the Eastern boundary of Dakota Territory—this, with the completed road on the Pacific slope, and the St. Paul and Pacific branches of 28 miles, make nearly 600 miles of road in operation at the close of 1871.

As the U. S. Government is now pulling in the Five-Twenties, holders of these can convert them into Northern Pacific Bonds, and thereby INCREASE THEIR INCOME MORE THAN 33 1-3 PER CENT. At the present time a good proportion of the sales of N. P. Bonds are by the conversion of Five-Twenties, and we notice that the Boston Journal in its monetary article of Nov. 11th, says: "Holders (of Five-Twenties of 1862) are either realizing upon them, or exchanging them into other issue—often into railroad bonds—the Northern Pacific Seven-Thirties are favorites for reinvestment."

The Chicago disaster fully demonstrated that a First Mortgage Bond on any Trunk Line of rail road is the safest and least fluctuating security known. This is manifest in one quite marked instance, as seen in the fluctuation of the First Mortgage Bonds of the Michigan Central Railroad, which fell but one per cent. in the late financial panic, while U. S. Five-Twenties and Stocks of that date fluctuated two to three per cent.; and here the Michigan Central Railroad land met with the greatest one it could by fire—the burning of its large terminal depot. The New York Daily Bulletin, which gives the authentic reports of the Stock Exchange, in its issue of the 11th of October, after the Chicago fire, says: "Railroad Bonds have stood the shock better than any other class of securities," and again, October 18th, says: "Railroad Bonds are steadier than any other class of securities."

To persons seeking permanent investments, who hitherto of Government Bonds wishing to increase their income, WE WOULD RECOMMEND THE NORTHERN PACIFIC SEVEN-THIRTY GOLD BONDS AS ONE OF THE BEST AND SAFEST SECURITIES NOW OFFERED TO THE PUBLIC.

We recommend this bond for the reason that it is GROUNDED UPON A BANDED REAL ESTATE BASIS, NOWHERE DOUBLE THE AMOUNT OF BONDS ISSUED PER MILE, AND ALSO UPON A FULLY EQUIPPED TRUNK LINE OF RAILROAD RUNNING THROUGH THE SAME.

For further particulars concerning this Bond, or purchase of the same, apply to the undersigned.

W. S. DENNETT,

Cashier.

Second National Bank,

BANGOR.

INVESTING MONEY.

The 7 3-10

GOLD LOAN!

We offer for sale at par and accrued interest, the

First Mortgage

Land Grant Gold Bonds

OF THE

Northern Pacific

RAILROAD COMPANY.

These Bonds are payable in 1900—bear 7 3-10 per cent. interest in GOLD, payable first of July and January, are FREE OF U. S. TAX—are receivable at 10 PER CENT PREMIUM for 1 Government's land at the LOWEST CASH PRICE, and are issued in the following denominations: Coupon bonds, $100, $500, and $1,000; Registered bonds, $100, $500, and 1,000, $5,000 and $10,000.

The Company is allowed to negotiate and procure a loan which shall not exceed Fifty Thousand Dollars per mile, which is secured by a FIRST and ONLY MORTGAGE UPON THE RAILROAD, FRANCHISES, AND ALL THE LANDS AND PROPERTY, AND RIGHTS OF PROPERTY, REAL AND PERSONAL, NOW IN POSSESSION BY THE NORTHERN PACIFIC RAILROAD COMPANY, OR WHICH THE SAID COMPANY MAY HEREAFTER ACQUIRE, and THE TRUSTEES OF THE BONDS ARE OBLIGED TO HOLD 21,000 ACRES OF AVERAGE LAND AS SECURITY FOR EVERY $10,000 OF BONDS ISSUED.

Thousands of all lands, "AT SUCH PRICES AS APPROVED BY THE SAID TRUSTEES," are set apart to redeem the Bonds for, by the definite terms of the mortgage, "THE PROCEEDS OF ALL SALES OF LANDS, WHETHER IN CASH, BONDS, COUPONS OR OTHER SECURITIES, SHALL BE DEPOSITED WITH THE TRUSTEES; also, "ALL MONEYS IN THE HANDS OF THE TRUSTEES FOR LANDS SOLD, SHALL BE INVESTED BY THEM, IN THE FIRST MORTGAGE BONDS OF THE COMPANY SECURED BY THIS MORTGAGE, WHEN SAID BONDS CAN BE PURCHASED AT A SUM NOT EXCEEDING 110 CENTS ON THE DOLLAR AND ACCRUED INTEREST."

Without the Northern Pacific Railroad Company intend to sell the same quality of lands at prices BELOW OTHER GRANTS, to induce rapid settlement; still the practical working of the above promises is apparent, for the sales of land up to November 1st exceed 200,000 acres, at an average price exceeding of 46 per acre, EQUAL TO 12,000,000, OR MORE THAN 10 PER CENT. ON $11,750,000, WHICH WAS THE TOTAL AMOUNT OF BONDS SOLD TO THAT DATE; still this 200,000 acres of land is NOT QUITE ONE-SIXTEENTH PART OF THE LAND GRANT IN MINNESOTA ALONE.

Below we give the average price per acre of the sales of the Land Grants in different roads, that some idea may be formed of the immense value of the 50,000,000 acres granted to the Northern Pacific Railroad Company, for there can be no doubt that the average price per acre of its land sale will be much above the general average price these roads:

ENVELOPES.

No additional charge will be made for printing the name and request to return, across the left hand upper corner of the envelopes furnished by the Post Office Department, (samples of which, may be seen at the Cashier's Window,) when ordered in lots of not less than 500.

A request for the return of a letter to the writer, if unclaimed within thirty days, or less, written or printed, with the writer's name, post office and State, across the left end of the envelope, on the face side, will be complied with.

The public are earnestly recommended to procure Stamped envelopes with printed return request, as the expense is less, and letters thus endorsed, if not delivered to the person addressed, are returned to the writer free of charge.

First class envelopes of above furnished at $33.00 per thousand.

Stamps cut from Stamped Envelopes.

cannot be used to prepay postage. The use of such Stamps is punishable by a fine of fifty dollars.

Stamped Envelopes, spoiled in directing, are redeemed at the office.

DOMESTIC POSTAGE.

All Letters must be Prepaid.—Letters for the Mail in the United States, three cents the half ounce or single rate. City letters one cent for half ounce or single rate.

Newspapers.

Newspapers not by mail must be prepaid by stamps, unless "regularly issued and sent to subscribers," when the following rates are charged, payable quarterly in advance, at or at the mailing or delivery office:

Dailies,	35 cents
Six times a week,	30
Tri-Weekly,	15
Semi-Weekly,	10
Weekly,	5

Weekly in County where published, *free.*

Newspapers, Periodicals, and Circulars, dropped into the office for local delivery, must be prepaid.

Postage to Canada.—Postage on books and other printed matter, including newspapers, can only be paid to the Canada line.

Books.

Not exceeding 4 ounces in weight,	4 cents.
And for each additional 4 ounces, or fraction	4 cents.

Unsealed Circulars.

Not exceeding 3 in number, to one address,	2 cents.
Over 3 and not exceeding 7,	4 cents.
Any in excess of number the same proportionate rates.	

Transient Printed Matter.

One package to one address, not exceeding 4 ounces,	2 cents.
Each additional 4 oz. or fraction thereof	2 cents.

Advertised Letters.

All letters remaining in the office are advertised, on Monday of each week. If not claimed in one *month* thereafter they are then forwarded to Washington.

MONEY ORDERS.

Especial attention is called to the Money Order system, as a safe and cheap method of transmitting small sums through the mails. Orders issued for any sum not more than fifty dollars. Larger amounts can be transmitted to the same person, at the same time, by additional orders.

RATES.

On orders not exceeding $20,	10 cents
over $20 and not exceeding $30,	15 cents
over 30 and not exceeding 40,	20 cents
over 40 and not exceeding 50,	25 cents

Never put Money in a Letter—Always Procure a Money Order.

If money is to be remitted, a Postal Money Order should be obtained. If upon points where there is no Money Order Office, then the letter should be Registered. Money should never be enclosed in an envelope.

Office Hours—From 8 A. M. to 6 P. M.

REGISTRY DEPARTMENT.

All valuable letters should be Registered, unless a Money Order is obtained. Under the present system of Registration letters are transmitted with perfect safety.

$5000 REWARD!

$1000 REWARD!

I will pay FIVE THOUSAND DOLLARS for a better remedy than

ADAMSON'S

Botanic COUGH BALSAM,

A Choice Investment Security!

I will give ONE THOUSAND DOLLARS for a case it will not cure, unless it is an advanced case of Consumption.

More than 10,000 Bottles Sold and not a failure yet.

New Testimonials.

Testimonial from Deacon Theodore B. Perkins, formerly of the well known house of Nason, Hawkin & Co., Augusta, Me, after using one-fifth cost bottle of Adamson's Botanic Cough Balsam.

GLOUCESTER, Mass., Dec. 26, 1871.

F. W. KIDMAN, Esq.—My Dear Sir: Excessive business calls alone prevented my sooner acknowledging the receipt of your very valuable favor, and I am now glad to say that your Adamson's Botanic Cough Balsam in the most efficacious preparation for coughs and colds that I have ever had in my family. At the time it was received, I was suffering badly with Asthma, attended with a dry, hard cough, both of which left me immediately after taking the mixture. The latter has not returned. It has been several weeks.

We, the undersigned, having enjoyed for many years an intimate personal acquaintance with Deacon Theodore B. Perkins, would certify that his case of Asthma was as bad as any that has ever come under our notice, and that to our knowledge, on account of this, he went to California, where he remained about one year, undergoing treatment for the disease.

J. J. EVELETH, Mayor of Augusta.
SAMUEL TIBBETS, Ex-Mayor of Augusta.
DANIEL WILLIAMS, Ex-Mayor of Augusta.
WALTON E. HALLETT,
Cashier Farmers' and Freemen's National Bank.
REV. O. F. PERRY,
Pastor First Baptist Church.
W. P. WHITEHOUSE, County Attorney.

DORCHESTER, Dec. 20, 1871.

Mr. F. W. KIDMAN—Dear Sir: For the last 5 years I have been troubled with a cough, more or less one winter in Florida, taken about every thing in the shape of patent medicine and doctors' prescriptions, and I can say that your Adamson's Botanic Balsam is the best thing I have found for a cough. I have been using it now some three months, and am about well. Yours truly,

S. B. YOUNG,
Formerly of Augusta.

AUGUSTA, Jan. 20, 1872.

MR. KIDMAN: I have been troubled with Asthma, attended with a Cough, ever since I was six years of age; have tried various remedies. Commencing using Adamson's Botanic Cough Balsam some time in January, 1871, and it seemed to act like magic, curing me at once. I have had but little trouble since, and that is all that it is the best cough medicine I ever met with in my lifetime, and it has given good satisfaction.

F. M. FOGGER.

MISS SAWYER'S SALVE.

HERE you have a valve combining soothing and healing properties, with no dangerous ingredients, as formerly at hand for the many pains and aches, wounds and bruises, which flesh is heir to. Is more easily applied than many other remedies never producing a bad effect, but always relieving pain, however severe.

This prepared by *Miss Sawyer*, who has used it for her own family, under treatment of the sick, for nearly twenty years, with great success.

The principal disease for which this salve is recommended are: *Chilblains, Rheumatism, Piles, Scrofula, Old Ulcers, Salt Rheum, Scalds, Burns, Fever Sores, Nipples, Pimples, Erysipelas, Sore Eyes, Sore Throat, Croup, Deafness, Boils, Ring-worms, Corns, Bites of Insects, Tumors, Toothache, Earache, Sore Nipples, Baked as, Swelled Breasts, Itch, Scald Head, Tetter, Chapped Hands, Scalds, Cuts, Bruises, Croup, Crooked Toes, and Scalds Children.*

It never fails to cure Rheumatism if properly applied. Rub well with the hand three times a day, in several cases it has cured palsied limbs. For *Piles* it has been used in a few cases, and seldom fails to give relief. Persons that have been afflicted for years have been relieved by a few applications. For *Erysipelas* it works like a charm, allaying the inflammation and quieting the patient. For *Chapped Hands* it produces a speedy and thoroughly cure. For *Rheum* obtain this first, and apply it freely, and they will find it invaluable. It is good in cases of Scald Head, Tetter, *Corns*. *Corns* have been cured with it. The best Salve ever invented for *Scrofula, Breast and Sore Nipples*. No wonder Indians, but have to afford relief. *Sore of Weak Eyes*—Rub it on the lids every night, twice a day. Cures deafness, if used in the ears as a piece of cotton. For *Tetter* this salve is superior to anything known. For *Scalds* apply the Salve at once, and it gives immediate relief. For *Old Sores*, apply once a day.

FOR HORSES AND CATTLE.—For Scratches on Horses or Cattle the Salve is invaluable, and has astonishing effect in curing mangled or sore horses. This Salve has worked its own way into notoriety, and is a safe and sure remedy for all the above ailments.

We, the undersigned, have seen acquainted with Miss Sawyer for many years, and believe her to be a Christian lady and a skilful nurse, and having used her salve for our family, it gives us great pleasure in saying it is the best general medicine we have ever used:
